Istanbul, Turkey, 34455, Turkey

Multiplatform Mobile Developer with 1+ year of experience building cross-platform apps using Flutter. Published Habitly (habit tracker) and DevIO (AI-powered LLM tool), with DevIO ranked in App Store's Top Charts for Developer Tools. Proficient in Dart, Firebase, and leveraging AI tools to optimize development workflows and app performance. Combines UI/UX design with robust backend integration, committed to clean, scalable solutions.

Work Experience

Multiplatform Mobile Developer

Aug 2023 - Apr 2025

Digital Art Platform | Istanbul

- **Mobile Development** : Engineered the development of MacMasters, a cross-platform real estate app using Flutter, featuring property listings, AI-powered search, and real-time chat. Optimized app performance, reducing load times by 25% through Firebase integration and efficient state management.
- **Market Research** : Conducted competitive analysis and user surveys to guide the roadmap for 3 upcoming projects, identifying key trends in proptech and AI tools.
- **Media Leadership** : Managed a 5-person media team, overseeing content creation and social campaigns that increased platform visibility by 40%.

Projects

Devio

Feb 2025 - Present

AI-powered mobile app enabling secure interaction with locally hosted large language models (LLMs) like Ollama. Built with Flutter and Dart, prioritizing privacy and real-time processing. Ranked in App Store's Top Charts for Developer Tools.

- Integrated Ollama API for seamless LLM interactions, ensuring 100% local data privacy.
- Achieved Top Charts ranking in App Store's Developer Tools category.
- Leveraged Flutter Bloc for state management and Firebase for analytics.
- Designed intuitive UI with real-time response streaming and dark/light themes.

Habitly

Sep 2024 - Nov 2024

A cross-platform habit tracker and task manager are built with Flutter. Features local storage via Hive, customizable reminders, and progress analytics. Designed with a focus on intuitive UI/UX and efficient state management using Riverpod.

- Track daily, weekly, or monthly habits
- Beautiful streak tracking and statistics
- Cloud sync with offline support
- Secure sign-in with Apple or Google

Core Skills

Programming Languages: Dart, C++, Python

Mobile Development: Flutter (Cross-Platform), REST API Integration, Firebase (Auth, Cloud Firestore)

AI & Machine Learning: AI Development Tools, Ollama Integration (LLM Solutions)

UI/UX Design: UI/UX Principles, Responsive Design

Tools & IDEs: Visual Studio Code, Android Studio, Cursor

Version Control & DevOps: Git, GitHub, CI/CD Pipelines

App Deployment: App Store Publishing, Top Charts Optimization (Ranked DevIO in Developer Tools)
